a kind word. a changed world.

## Bringing Stick Together™ to Your School:

### Important Steps to a Successful Program

1. Review the Program Summary, Program Outline and these Important Steps to a Successful Program.

*NOTE: A detailed program guide will be sent to you upon registration with step-by-step facilitator instructions for each program element.*

2. Decide you want to present Stick Together™ to your school or students in your district.

3. When do you want to present the program?

Choose a date. We need **3 weeks notice** before the date you choose so that we can communicate with you and ship all necessary materials. Sign up at [www.projectlove.org](http://www.projectlove.org)

4. To what classes (or grade levels) will you present the program?

This program is best geared toward students in grades 2-5 but available for any age group you see fit in an elementary or K-8 building. Note that the program can be presented in the individual classroom or assembly style. Whatever works easiest for the school.

5. How many students will you involve?

We recommend presenting the program to approx. 50 students in a 45-50 minute session. Please take into account if you need to do multiple sessions to present the program to all of your targeted students or to accommodate the school schedule.

6. Decide who will present the program - (teacher, principal, counselor, high school students, etc.)

We recommend having one (1) lead facilitator and one (1) co-facilitator for optimal implementation as well as other teachers or volunteers for passing out handouts and managing the Duck Tape® banner activity.

7. In what room/area will you deliver the program?

As mentioned above, the program can be presented directly in the individual classroom or assembly-style with a larger group. \*You will need:

- Tables and chairs, or desks, to seat students with enough space to write
- Wall space to hang the Duck Tape® banner (48 in x 48 in)

- The ability to show a video with sound. The video is played through a web link, so internet access is needed. Be sure you have the ability to project the video from a computer or laptop onto a screen everyone can see. If you do not have internet access to play the video, please let us know and we can make other arrangements.

**Suggested areas:** a large classroom, cafeteria, a small gymnasium (provided tables and chairs are available)

*Notes: Allow space to hang the Stick Together™ banner at student height and have enough room for the students to get up and put their tape on the banner. Additionally, you will need 1-2 work tables for the Duck Tape® activity (for students to come up and sign their name to a piece of tape before putting it on the banner) Please take into account the size of the room you choose and whether or not you will need microphones and a sound system.*

## 8. Necessary Materials & Set Up

All program handouts and guides will be sent to you electronically upon registration. *Your school must have the ability to print the number of copies needed for the students participating in the program (a one-page handout per student participant).* Once you register as a program participant, your school will be mailed a package with the banner and the appropriate amount of Duck Tape® for the number of students you plan to participate. Regardless of how many sessions or students you have participating, each school will only be provided one banner. One banner is plenty of space to adhere at least 150-200 pieces of tape. The goal is to have all of your students pledging to Stick Together™ on the same banner so that can be displayed at your school for the remainder of the school year.

### **Materials the school needs to provide:**

- Print student “personal commitment” handout for each participant
- Pencils for personal commitment writing activity
- Any AV equipment to accommodate video and sound; internet access
- Tables and chairs
- Ability for facilitators to record student “Kindness is” responses – chalkboard, posterboard, powerpoint, etc.

## 9. Be available to fill out an online survey after the program is completed.

After your program is completed, we will email you a survey link for you to share with all program leaders (facilitators and adults). Student participants DO NOT take the survey. Your thoughts and feedback are appreciated. Please complete this survey within a week after your program is completed.

## 10. Assign someone at your school or district the job of taking photos or video.

After your program is complete, send or upload your photos and video.

## 11. **IMPORTANT: Fill out the online registration form at [www.projectlove.org](http://www.projectlove.org)**

Your online registration will inform Project Love & Duck Tape® of your participation and allow us time to confirm your program, send you all necessary materials, and correspond with you to answer any questions and make sure you have everything you need for a successful program. *Please give us at least 3 weeks notice before the date you choose.*

**Any Questions?** If you have any questions before signing up to bring Stick Together™ to your school, or a school within your district, please contact Amanda or Mary Alice at the Project Love office, 440.442.5683. We would be more than happy to answer any questions. Thank you!
